## HAS VIOLATED TRADE TREATIES

The Seriousness of Relations Between  
the United States and Great Britain  
Not Realized in London

(Special to The Herald)  
Washington, July 25.—Nearly every existing trade treaty between Great Britain and the United States has been violated by that nation in her assaults upon American commercial rights which now has culminated by the creation of a blacklist of more than

## SOLDIERS ON RAMPAGE

Colored Troopers Shot and  
Injured at Fort Sam  
Houston.

(Special to The Herald)  
Washington, July 25.—Three members of the 5th Illinois Infantry, colored, were shot and injured by a military patrol of white troops from Fort Sam Houston last night when trouble occurred in a saloon near the fort. A report made to the War Department today by Gen. Funston said that 30 men of the 5th Illinois went to a saloon after receiving their month's pay and began threatening to throw white soldiers out of the place. Trouble started and a guard patrol was sent from Fort Sam Houston. Three of the colored troops were wounded. Others were struck with the butts of guns. An investigation is being made.

### ANNUAL PICNIC.

On Labor Day the members of Mercedes Aerle, No. 652, P. O. E., will hold their annual picnic at Sagamore Grove. The committee in charge will spare no efforts to make the affair a success in every way.

## MANY GERMANS CAPTURED

Together With 140 Guns,  
Trench Mortars and  
Machine Guns.

(Special to The Herald)  
London, July 25.—Since the battle of the Somme opened on July 1, 26,223 Germans have been captured by the Allies. These figures are contained in a summary of the fighting. In addition to prisoners the Allies have taken 140 guns, about 40 trench mortars and several hundred machine guns. In its official report on the latest operations, the war office announced today that the Germans after being reinforced attacked the right flank and also delivered two assaults against the British center.

### SHARK'S JAW ON EXHIBITION

The jaws of a small shark on exhibition in the window of the E. C. Matthews Company, Pleasant street, is attracting considerable attention and shows what might be expected from a larger one of these deep sea monsters if a person should be attacked by such a fish.

## NINETEEN DEAD AND SCORES INJURED

Crew Were Working 50 Feet Below the Bottom  
of Lake Erie, Near Cleveland, When Gas Vein  
Ignited—First Rescue Party Succumbs to  
Fumes and Work of Rescue is Delayed  
Until Daylight

(Special to The Herald)  
Cleveland, July 25.—Nineteen men are known to be dead and a dozen injured as a result of an explosion of gas in a waterworks tunnel under construction between a pumping station on land and an intake crib, five miles out in Lake Erie late last night. The men were working fifty feet below the bottom of the lake and 120 feet below the street level. The explosion came as the tunnel workers broke through a gas vein with their picks and shovels and the fumes ig-

nitated from electric sparks. The night shift had returned to work last night after a three day lay off because gas fumes had been discovered and tests were made to ascertain the safety of further work. Although suspicious odors had been noticed for several days and work had been halted, the men were permitted to enter the tube without helmets or other means of safety.

At 8 p. m. last night eleven men descended the shaft. An hour later the explosion occurred and workmen on the surface detecting the fumes, attempted to signal the men in the

tube. Receiving no response they sent rocket signals into the air to attract life savers on shore. It was almost midnight when a rescue party made the descent. Of this party of 11, seven succumbed to the fumes. After the first rescue party had met the fate as the original workmen in the crib, no more men would volunteer to aid in the rescue work until helmets could be procured. There was considerable delay in getting helmets and not until after daylight today was the rescue work taken up by men properly equipped to withstand the deadly vapors.

## FERNALD'S LEAD OVER GUERNSEY

Returns From 450 Precincts  
in Maine Put Him  
592 Ahead.

Returns from 450 out of 635 precincts, reporting 337 out of 522 cities, towns and plantations gave Fernald a plurality of 592 over Guernsey at Monday's special primary for the Republican nomination for United States Senator to succeed the late Edwin C.

Burleigh. The totals were 7851 for Fernald and 7219 for Guernsey, no change being made by a revision of the tabulation. Most of the missing towns cast a light vote.

The 20 cities of the state gave Fernald 3162 and Guernsey 2158, a plurality of 974 for the former.

The vote was very light, being less than one-third of that cast at the regular June primaries, which was 42,000 for the Republican candidates for the gubernatorial nomination. This is the first special primary to be held in Maine.

Kenneth C. M. Sills, dean of Bowdoin college, was given the Democratic nomination without opposition.

## BERLIN ADMITS REPULSES

For Her Armies at Several  
Points in the War  
Zone.

Berlin, July 25.—Successes for the French and Russians are admitted in the official report today. English attacks on the Pozieres-Maurepas front north of the Somme river, broke down. Further south the French gained ground near Estrees on the eastern front Russian attacks south of Riga and along the Dvina were repulsed, but the Russians penetrated German positions on the Stenawka front and south of Berestchko. In these regions Gen. von Lindenberg's forces lost some of their first line trenches.

## FRENCH MAKE NEW GAINS

Paris, July 25.—Renewing their pressure south of the Somme the French by means of attacks preceded with attacks, have thrown back the Germans at some points and made some progress. The gains of the French were reported today. Strong artillery action last night. German forces in Alsace attacked French positions but all of the assaults were repulsed.

### WANT BADGER TO RUN

Democrats Talking Him for  
Senator in 24th District.

The Democrats are talking ex-Mayor Daniel W. Badger as a candidate for senator in the 24th district. The party voters of ward three will nominate him for representative if he will say the word. He has not given out any statement relative to either of the reports.

## WIELDED AXE ON WIFE'S LOVER

Lawrence Man Uses Weapon With Mur-  
derous Intent--Victim Dying in  
Hospital

(Special to The Herald)  
Lawrence, Mass., July 25.—With an axe and a piece of his scalp and skull chipped off, Bennie Perro, aged 45, of 125 Jackson street, is lying at the Lawrence General hospital, and Carmen Elrem, aged 60, of 308 12th street is held for numerous assault

as the result of an altercation at the latter's home today. Elrem came home to find Perro alone with the former's wife. Elrem had previously objected to the attentions paid to his wife by Perro, and seizing an axe, Elrem rushed at the man and wielded it several times, the police say.

## ALL HOPES ABANDONED

Casement's Execution Has  
Been Set for August 1.

(Special to The Herald)  
London, July 25.—Sir Roger Case-

ment's execution has been set for August 1, the Daily Mail stated today. Unless granted royal reprieve, Casement will be hanged in the yard of Pentonville prison. Hopes for the saving of his life by judicial means was practically abandoned when his appeal from his conviction on the charge of high treason was rejected on July 12.

Herald advertisers never complain of dull business.

# Y. M. C. A. CLIMBS UP TO FOURTH POSITION

## Defeats Consolidation Coal Company and Passed Knights of Columbus in Sunset League Standing

By defeating the Consolidation Coal Company in their game last evening, winning 5 to 1, the Y. M. C. A. has moved one step upward in the Sunset League, and are now occupying fourth place. Only a few points separate them from the Wilshire Shoe Company, at present occupying the position ahead of them. The C. C. C. which held first place for so long a time at the beginning of the season, are now in a tie with the U. S. M. C. for the cellar position.

With the exception of one inning, Spike Jordan was working in good form. In the fourth, he was unable to locate the plate and he passed one man, hit two in succession, allowed the man on third to score on a wild pitch and then passed another. A double play, permitted by Gorman's hurry to occupy third while Priett was holding the base, pulled Jordan out of the hole. He was hit but twice, once by Harrington in the third and by Woods in the fifth.

Three double plays were made in the game, two by the Y. M. C. A. and one by the Coal Company, due to a bonny by the coach on first in allowing a base runner to go second when the batter went out a long fly to center. Thomas of the Y. M. C. A. was the only man to hit for more than a single when his second time at bat resulted in a two bagger in the fourth, scoring Gorman from second. Thomas was the only man on either team to make two hits, he batting for 1.00 for the game.

Brackett, the regular 1st baseman, failed to appear and Tom Craig, a member of the team last season, was allowed to play in his place. Although several errors were charged against both teams, the game was fast and interesting. Driscoll was hit safely five times, fanned three and passed four. Jordan fanned two, passed three and hit two.

**The Game**  
1st Inning.—Harrington was safe when Marden fell down going after his grounder. Rutledge's attempt to hit rolled in front of the plate and Thomas threw him out at first. Woods lined to Thompson and was out. Thomas throwing to Marden, doubling Harrington out at second. NO HITS, ONE ERROR, NO RUNS.

Thompson singled to center and was sacrificed second by Marden. Thompson took third on a passed ball. Davis walked. Butler singled to right, scoring Thompson and Davis, taking second on the throw. He stole third and came home when Harrington lost the throw from Pinett. O'Brien walked. Craig tied to Rutledge and O'Brien was doubled out at first on a throw to Able. TWO HITS, ONE ERROR, THREE RUNS.

2d Inning.—Able grounded out to center. O'Brien dropped a fly hit out to center by Priett, but the baserunner was forced at second on a grounder. Jordan to Marden, by Gorman. Gorman stole and took third on Jordan's bad throw to second. Kelly, lined to Gorman in left. NO HITS, ONE ERROR, NO RUNS.

Gorman fanned. Thomas singled and stole. Jordan hit through Collins who had replaced Rutledge at short at the beginning of the session. Jordan started second and Priett threw wild, allowing Thomas to score. Jordan going third. Thompson tied to Gorman in center. Marden fanned. ONE HIT, TWO ERRORS, ONE RUN.

3d Inning.—Abrams grounded out to center. Harrington singled to right, advancing Abrams to second. Collins fanned to O'Brien in center. Woods for-

ced Abrams at third on a grounder to Butler, unassisted. NO HITS, NO ERRORS, NO RUNS.

Davis popped to Able. Butler fanned to Collins. O'Brien walked and took second on a passed ball. Craig fanned. NO HITS, NO ERRORS, NO RUNS.

4th Inning.—Able walked. Jordan hit Priett and Gorman, filling the bases. Able scored on a wild pitch. Kelly walked, again crowding the bases. Abrams fanned. Driscoll tied to O'Brien in center and Gorman was out between second and third. O'Brien to Thomas to Marden. NO HITS, ONE ERROR, ONE RUN.

Gorman walked and stole. Thomas, belted one to center for two bases, scoring Gorman. Jordan fanned to Kelly. Thompson fanned to Driscoll. Marden singled through short and stole. Davis out at first on a grounder to Harrington. TWO HITS, NO ERRORS, ONE RUN.

5th Inning.—Harrington grounded out to Thompson. Collins was out on a grounder to Craig. Woods singled to third and was out. Butler to Thompson, attempting to make second on the hit. ONE HIT, NO ERRORS, NO RUNS.

## SOCIALISTS TO FIGHT ON SAYS GERMAN LEADER

Berlin, July 25.—At a mass meeting held at Waldenburg in Silesia, Philipp Scheidemann, the leader of the Socialists and former vice president of the Reichstag said:

"The destruction of Germany would mean a terrible fate for millions of our workmen. He would be at the mercy of the merciless victors and Germany would again become an agricultural state without commerce and industry. The whole German nation would be compelled to a state of utter misery from which it could never rise again.

"These facts we understand when the war broke out and we shaped our policy accordingly. In August, 1911, we declared that we would fight for the empire to the last drop of blood and we are firmly determined as ever to defend the fatherland against its enemies of enemies. What a victory of our enemies would mean we have seen in Eastern Prussia. It is true that in Belgium conditions also are not as pleasant as in peaceful Waldenburg, but our soldiers in the eastern country have not acted like the Russians, and we are proud of that.

"When we voted for the war credits we energetically protested against a

breakfast that morning consisting of a slab of middle aged bread and a piece of bacon. They received nothing more until 8 o'clock that evening after a day of exceptionally strenuous work in the open air.

"That night everyone but the officers slept on damp ground with nothing beneath them but a poncho and a shelter half. Thursday was a day of meagre rations and cloudbursts, the fellows receiving their meagre meal shortly before four o'clock in the afternoon.

A thunder storm came up about noon and all but washed the tents away. The men were forced to turn out with nothing on but their wrist watches to dig trenches to carry off the surplus water.

Pharr, prior to the arrival of the troops consisted of a station, post office, hotel and one of two stores. Now, within a week there are numerous buildings in the course of construction, one of them being a church for the regimental chaplain.

The prices for everything are very high and the men are stripped clean of their ready cash. A bottle of milk is 20 cents, sandwiches are a dime and practically everything is correspondingly exorbitant. Even soap sells for double the usual amount.

### THE HIRED MAN

He grew up in our neighborhood. Some said he never went to school. Was shokin' corn or cuttin' wood. Most always but he wa'n't no fool.

He'd guess a hog's weight to a pound. He knew which pumpkins made good pie. And on the worthless patch of ground He coaxed my dad to sow some rye.

He chewed tobacco all his days, And cleaned his boots off with a cob.

Some people don't like his ways, But he was always on the job.

He pitched more hay than any two Who traded wheat in harvest time. What needed doing he would do. In dry or wet, or dust or grime.

He did his chores by lantern light, And nearly never went to town. The wages that were paid to him Were hoarded up and salted down.

And when he married Tillie Strong, And went to farmin' for her dad, We couldn't hardly get along— A better hand nobody had. —Howard C. Kestey in Farm and Home.

# PUT 12-MILE DENT IN GERMANS' RIGA LINE

## Czar's Army Claims Advance Along Thirty-Mile Front--British Take Important Positions in Somme District

London, July 24.—British troops have captured a large part of the village of Pozieres, says the official British statement issued this afternoon. They also gained some ground near High Wood, in the direction of Guillemont.

The Germans have been driven back 12 miles on a point on the Riga front, according to a Reuter's dispatch from Petrograd. Progress for the Russians is claimed on a front running from the Gulf of Riga to Ushak, a distance of more than 50 miles, the greatest advance being made along the coast line.

The dispatch says that fighting went on without pause for four days prior to Sunday. It has now halted, as the Russians require time to consolidate the ground they have gained and the Germans are waiting for re-enforcements.

### Russians Break Down Austrian Resistance

Petrograd, July 24.—Russian armies have blasted and battered their way through the German line below Riga and have shattered temporarily the Austrian resistance to further Russian advance toward northeastern Galicia and Hungary. Violent German counter attacks northeast of Kovet have been repulsed.

Today a violent artillery duel was in progress between the forces of Gen. Kuropatkin and Von Hindenburg along the northeasternmost point of the battle front.

So far the censor has vetoed the exact details of Gen. Kuropatkin's recent coup, but the fact that the Czar's troops have been able successfully to pierce Von Hindenburg's line—considered the strongest to which the Russians are opposed—was hailed here as one of the striking achievements of the war.

Further details today served to accentuate the extent of the victories of Gen. Sakharoff along the rivers Lipa and Sty. Apparently his forces have almost encircled the Teutonic commands of Gen. Boehm-Brenhoff and Bohmer, forcing their ineffectual retreat. Russian troops now dominate both banks of the Lipa from the Sty to near Mirkow, and in some parts of the line have thrust forward eight or ten miles beyond the river. Troops are menaced with an enveloping movement.

Southward Russian forces control many of the approaches to Jablonitz and have forced retirement of the Austrians to crests of the hills beyond. Probably the conflict today is in the pass itself. Considerable booty has fallen into the Russians' hands and in two days 27,000 men have been captured.

### Berlin Marvels at Determination of Allies

Berlin, via London, July 24.—The correspondent of the Lokal Anzeiger on the Somme front, describing the fighting of July 19-20 says: "Even the powerful forces of the

vance detachments drove off enemy detachments.

Slavs Near Erzincan  
Petrograd, via London, July 24.—Forces of Emperor Nicholas, operating in Turkish Armenia, are steadily advancing upon the fortified town of Erzincan from the north and the south, says a Russian official statement issued today. On the east the Russian advance guard is within 15 miles of the place which is 80 miles southwest of Erzerum.

## EXAMINATIONS FOR TEACHERS

### DEPARTMENT OF PUBLIC IN- STRUCTION ISSUES NOTICES TO CANDIDATES, SETTING DATES FOR AUG. 25 AND 26

Under date of July 24 the department of public instruction, division of inspection and examination, has issued the following notice to candidates for State Teacher's certificates.

Concord.—There will be examinations for state teachers' certificates held on Friday and Saturday, August 25 and 26, at Concord, Keene, Woodsville, North Conway, Portsmouth, Whitefield, and West Lebanon.

Candidates who desire to take the examination should send at once to the department for application blanks.

Under the new regulations candidates for elementary certificates may come up for examination, but must show proof of two years' experience in teaching before such certificate will be issued.

Candidates who did not complete their examinations in June and desire to do so in August, will please notify the department where they will present themselves.

Superintendents who desire to hold examinations for their own group of teachers not accommodated by the facilities above will be named as proctors upon notifying the department.

All candidates for supervisory certificates will present themselves at Concord.

NOTE.—The regulation requiring application papers to be sent to the department at least a week before the date of examinations will be strictly enforced.

This regulation will be strictly adhered to. Candidates must not be disappointed if they fail to receive admission cards when papers are sent after August 18.

### ITALIANS CLAIM BIG GAINS MADE

Rome, via London, July 24.—Italian attacks in the Astico region to gain possession of Monte Cimini are making good progress, says the Italian official statement issued today. The Austrian defenses just below the summit were captured yesterday.

Belittles British Gains  
Berlin, via London, July 24.—The only advantage gained by the British in the fighting on the Somme front Sunday, says the German official statement issued today, was the penetration of a few houses in the village of Pozieres, for which they paid with heavy and sanguinary losses.

### Russians Retreat

Constantinople, via London, July 24.—A further retreat of Russian forces in Persia under Turkish pressure is reported in today's official war office statement, which says:

"In Persia, Russian forces which led in disorder eastward attempted to offer resistance to kilometers east of Pzandoz. We pursued them. The enemy, unable to offer battle, was obliged to withdraw toward the frontier."

"In the district of Panama, our ad-

# FAMOUS FAIR GROUNDS CUT INTO HOUSE LOTS

## Rockingham Park, at Salem, to be Discontinued and Reports Point to the Fact that no Fair Will be Held this Year

It is said upon reliable authority that no fair will be held at Rockingham park, Salem, this year and that with the present plans of the owner, Edwin F. Searle, the Methuen, Mass., millionaire, the famous park, which was created by several New York wealthy horsemen, is a thing of the past.

It is understood that considerable of the furnishings of the large stand have been removed and disposed of and that the club house is also to be done away with. Several lots of land along the roadway have been sold.

It is believed that Mr. Searle intends to cut the park into house lots and sell them and that perhaps other sections of the big plot are to be transformed into picnic grounds for public gatherings. Saturday thousands of mill operatives from Lawrence held a picnic at the park.

New York millionaires who bought many farms in Salem and had the park laid out, and the buildings erect-

ed at a big expense, met with constant opposition by leading citizens of New Hampshire who began a crusade against gambling at the horse races.

A committee of 12 citizens of New Hampshire headed by Rev. Thomas Chalmers of Manchester who is now seeking the Republican nomination for congress, in the first district against Congressman Cyrus A. Shillaway, "The Tall Pine of the Merrimack," fought race track gambling and as a result Rockingham park was closed for a number of years.

Finally a stock company was organized and a few years ago fairs were held. Wilbur J. Duntley of Boston, being the manager. Mr. Searle later became the owner of the park and Chester L. Campbell of Quincy, the well known promoter of various exhibitions including automobile shows had charge of the fair last year while the attendances was fairly large. It is said that it was not a highly profitable enterprise.

## BOSTON LETTER

Boston, July 25.—Reports from all over the state sent into State Forester E. W. Rane indicate that a mild epidemic of some sort is affecting the maple and other hardwood shade trees. Complaints say that the diseased leaves of maples are turning brown and all shriveling up and the leaves of oaks are browning at the edges and then rolling up. Prof. A. Vincent Osmond, botanist of the Massachusetts Agricultural College, who was appealed to for an expression of opinion replied: "The trouble appearing on these leaves is due to a fungus. During the present season this disease has been prevalent together with a number of similar diseases occurring on sycamore, elm, poplar, beech, oak and several other varieties. In ordinary seasons little damage results, although the disease is always present to some extent. This summer the abnormally wet weather and high humidity have been very favorable to the development of the fungus. I have no records of any experiments on the control of the trouble, but I have no doubt that spraying with 4-4-50 Bordeaux mixture at intervals of about two weeks, beginning when the leaves unfold, would materially check it. It is too late to do anything the present season except gather the fallen leaves and burn them in order to destroy the fungus which they harbor." Forester Rane says most of the trees will probably recover another year although they look badly now.

Twice the amount of rain considered normal, has fallen so far this month. This condition was due to several severe storms which have drenched Boston since the last of June. From midnight Saturday until 9:30 o'clock Sunday night just 5.1 of an inch of rain fell in Boston. The total for the entire month up to the same hour was 1.91 inches. As the average rainfall for the first 23 days of July is only 2.23 inches, it is seen that the weather man is already well ahead of schedule to the extent of 2.68 inches. July does not stand alone, however, in its abnormal rainfall record. Numerous unfortunate vacationists remember with regret that June was likewise a rainy month—2.01 inches.

## PROHIBITION LOWERS COLORADO PRISON NUMBERS

Denver, Colo., July 24.—Prohibition is making a great record in Colorado. From May 1 to July 15 last year when saloons existed in Colorado—the state penitentiary received 137 prisoners.

From May 1 to July 14 this year—under prohibition—the penitentiary received 41 prisoners.

During the first six months of 1915 there were twenty-three prisoners who violated their paroles. During the first six months of this year, since the saloons were closed, only eight prisoners have violated their paroles.

### None So Deaf As Those Who Will Not Hear

"Not one word, if you please—not one word will I listen to against coffee!"

That is the attitude of many good people, even after they have reason to suspect that coffee hurts them.

True, some persons seem able for a time to use coffee without apparent harm, but sooner or later it does interfere with the health and comfort of many users.

# POSTUM

This famous food-drink is made of prime wheat, roasted with a bit of wholesome molasses. It has a flavor much like that of the higher grades of mild Java coffee, but is absolutely free from the drug, caffeine, in coffee, or any other harmful substance—free from all coffee troubles.

Postum is delicious and comes in two forms. The original Postum Cereal must be boiled. Instant Postum is a soluble powder—made in the cup by adding hot water. The flavor is the same and the cost about equal. Both kinds are good for young and old, and satisfy the craving for a hot, aromatic, mealtime beverage.

## MAY TAKE OVER DANISH WEST INDIES

Report That United States Will Acquire Islands in Near Future.

Copenhagen, July 25.—A treaty for the purchase of the Danish West Indies by the United States has been negotiated between the governments of Denmark and the United States, and in the near future is to be submitted to the senate and house of the United States and to the two houses of the Danish parliament for approval according to information given the Boston Globe Monday in Copenhagen by the highest official authority.

If the treaty is ratified as it stands in "project" form today, the United States will pay for the islands \$25,000,000 and in addition will relinquish to Denmark the rights of the United States in Greenland, Greenland is a Danish possession, and the rights which the United States will abandon are merely rights of discovery, the scope of which is ill-defined.

The United States will obtain from Denmark full possession of the islands of St. Thomas, St. John and St. Croix, or Santa Cruz, as it is better known. These islands lie about fifty miles off the east coast of Porto Rico. They are 142 square miles in area and support a population of 27,000 persons. Nearly all the inhabitants of the islands are negroes, who live by the cultivation of cane sugar.

## KING GEORGE TO TOUR CANADA

London, July 25.—The appointment of the Duke of Devonshire to be the new Governor-General of Canada is believed to be the preliminary talking of the British Dominions as soon after the war as may be feasible. The Duke of Devonshire's tenure of office, but the outbreak of war put this out of the question. The Duchess of Devonshire is not only mistress of the robes to the Queen, but is perhaps more intimately her friend than even Lady Lambington. The Queen will probably accompany the King and will probably take the opportunity of getting some big game shooting.

## CURRENT OPINION

One of the great essentials in this government of ours is that the people universally respect and revere the courts and judges.

The people should have an abiding faith in their integrity, in their fairness, in their ability. With such a faith generally held there is added security for the peace and order of the community. Without it there is a lack of restraint which makes easy acts of disorder and violence.

Lack of respect for the judicial branch of our government tends to undermine the foundation stone of its structure.

No representative government can continue stable if its judiciary are discredited and lack the confidence of its people.

When the people generally believe—although the belief be unjustified—that their courts cannot be trusted, that their judges are not impartial, that they are lacking in integrity, that they are grossly incompetent, that they render decisions in aid of their friends regardless of the law, there is cause for genuine alarm. Then the people naturally lose all respect for the law, and without that there is little restraint.

And it needs the actions of but one or two incompetent, unfair, dishonest members of the judiciary to stamp the whole bench, in the public opinion, as unworthy of confidence and esteem.—By Justice James C. Cropper, Supreme Court of New York.

## SUFFRAGISTS LIE LOW TO FIGHT AFTER WAR

London, July 25.—Although the suffrage agitation has been lying dormant ever since the beginning of the war, it must not be imagined for that reason that the leaders of the movement are not watching their opportunities.

A recent statement by Prime Minister Asquith in reply to a question on the extension of the register for the benefit of fighting men now at the front in the event of a general election quickly fanned the smoldering embers of suffragism into a flame. The question was at once raised, why an extended franchise? A prominent suffragist whose name is well known said:

"Mr. Asquith's answer cleverly dodges the women's votes question; for while thousands upon thousands of women are engaged in war work, none are serving in the military sense of the word. Of course a general election is unthinkable without the vote of the fighting men, but if the government scheme of registration fails to admit women to the full rights of citizenship it is bound to be held up."

From every point of view there is only one of two alternatives possible for the government, either it must postpone the whole question until the end of the war or it must make up its mind to deal with the matter on comprehensive lines by introducing a franchise measure based on the full democratic principle of adult suffrage."

## FEDERAL QUARANTINE

Went Into Effect in New York on Tuesday to Check Plague.

New York, July 25.—Infantile paralysis showed another sharp increase today. The records showed 38 deaths and 150 new cases as compared with 31 deaths and 53 cases Monday. The plague has now stricken a total of 3,098 persons in the present epidemic. Of these 674 have proved fatal. Regulations constituting a practical Federal quarantine of the city went into effect today.

## PEOPLES' OPINION

Wants Information

Editor.—Quite a number of months ago the business men of this city were called upon to subscribe for an illuminated sign to be placed on Noble's Island as a welcome to persons coming from Maine into New Hampshire and our city. I with others contributed to the proposed project, but up to the present time the sign has not made its appearance. Will some one who knows the situation kindly inform me if the delay is due to the great war being waged in Europe or to other causes. A SUBSCRIBER.

## NOW OR NEVER

The house was decked for the bridal hour  
With fragrant balm and fairest flower

But father by far does tradition tell  
Was the promised bride, fair Mehtabel.

Of all the suitors her hand then sought  
Proud William Whipple the answer had got

And there on that night in many a pride  
He had come to claim his promised bride.

The Reverend Samuel Langdon was there  
With flowing wig and powdered hair  
But he did not know of fate's decree  
Or that the wedding never would be.

Mehtabel Odiorne went from the room  
Sent her maid to tell the waiting groom  
Some other night she would then decide  
When to become his wife and bride.

"Can it be Mehtabel," Whipple said,  
"Tonight you now refuse to be wed?  
By the Reverend Langdon who has come  
To perform those rites that make us one."

"Then I tell you this though it will tear  
A heart that now holds you fondly dear  
And from my heart all fond hopes sever  
We will wed tonight, it is now or never."

This merchant member of congress said  
To the one he loved, who refused to wed,  
As in her father's home they did stand  
Her home which is now the Athenaeum

It is little this world does know or care

### OBSEQUIES

Dr. M. Ignatius (McDonough)

The funeral of Sister M. Ignatius (McDonough) of the order of Sisters of Mercy took place from the convent on Laurel street Monday morning. A solemn high mass of requiem was celebrated in the chapel at 8.15 o'clock, the officiating priest being Rev. James T. Crowley of Charity Square, celebrant, Rev. Francis J. Hannon of St. Joseph's Cathedral, deacon, and Rev. L. P. Giesel, chaplain of Mt. St. Mary's convent, Hooksett, subdeacon. In attendance within the sanctuary were Rev. John J. Lyons, P. R., of St. Anne's, Rev. D. A. Sullivan, P. R., of Portsmouth, and Rev. J. J. Ford of St. Anne's. The musical part of the mass was sung by the Sisters' choir. The burials were her brothers, Richard D. and William McDonough and her cousins, R. H. McDonough and John P. Larkin. Interment was made in the Sisters lot at St. Joseph's cemetery. The "Benedictus" at the grave was intoned by the Rev. Fathers Buckley, Hannon, Crowley, Giesel and Sullivan and the communal prayers were said by the Rev. Fr. Sullivan, the responses by the clergy.

Those present from other places were her mother and brothers and sisters from Portsmouth, Mrs. Emma McDonough, Mr. and Mrs. John McDonough, Richard D. and William McDonough and the Misses Katherine and Annie McDonough, also Rev. D. A. Sullivan of Portsmouth and Rev. L. P. Giesel of Hooksett.

### KEEPER IS PRAISED BY THE DEPARTMENT

Saved Life of Haverhill Man at Salisbury Beach on June 13.

Headquarters of the United States Coast Guard has addressed a letter of commendation to Keeper William A. Charles of the Salisbury Beach station, Mass., in connection with the rescue of George Cunningham of Haverhill, Mass., from drowning at Salisbury Beach June 13 last. It appears that at great risk Keeper Charles rushed into the surf and held the boy afloat until two civilians could pull out in a row boat and assist in the rescue. Cunningham was then taken ashore and kept Charles personally practiced resuscitation with successful results. Before reaching the point at which Cunningham was in danger of drowning, Keeper Charles ran nearly half a mile carrying a heavy life preserver and a long line the entire distance and, consequently, was much overheated when he entered the surf. So far as known Keeper Charles has suffered no ill effects from his experience.

## MONEY NEEDED FOR SOLDIERS

Red Cross Committee Can Use Contributions Subscribed at Once.

Chairman William W. Thayer of the Red Cross committee in charge of the military relief for the New Hampshire soldiers at the border received a telegram from Major Russell Wilkins Monday afternoon, saying that any funds available could be used to advantage now.

Thayer's committee is seeking to raise money for a checking account for Major Wilkins, head of the medical corps, to enable him to purchase necessities not provided by the government. The heads of the men was stated at a meeting of the Red Cross in Concord by Major Wilkins of few days before the departure of the troops for Texas and it was decided by the Red Cross to raise \$500 to be used.

A small portion of this amount has been raised and turned over to Major Wilkins, but Chairman Thayer hoped Tuesday that a more considerable amount would be available to telegraph to the major tomorrow night. Any contribution should be sent to Major Otis G. Hammond, of Concord; treasurer of the committee, and these will be forwarded to Major Wilkins.

## PLAN USE OF GOOD ROAD FUND

Commissioner Everett Has \$20,996.62 Available for New Hampshire.

Commissioner Frederic E. Everett of the state highway department is laying out plans for work under the provisions of the recent road improvement act of congress. There will be available \$20,996.62 for New Hampshire roads, provided the state spends a similar amount. Governor Spaulding has approved the congressional measure as required and the commissioner is now selecting the roads on which the work will be done.

The law provides that the commissioner must designate to the secretary of agriculture just what roads are to be constructed before the federal appropriation is available.

## GUARDSMEN LOSE THEIR LOCKS

Houston, Texas, July 25.—Ed Lee, one of the lucky Bremen at Central Fire Station, is rapidly acquiring a reputation as a barber. While he was engaged in clipping horses a number of the men of the Sixty-ninth Regiment of New York stopped to look at the fire apparatus. One of them, Ed Lee, while acting as hair-trimmer to his team.

"Say, friend, what's the chances to get a haircut?" the soldier finally asked, after watching Lee deftly with the surplus hair from one of the fire horses with an electric clipper.

"Fine," said Lee. As soon as Lee had finished with the steed, he called "next" and in a jiffy Mr. Milfordman had his surplus hair removed.

"Next" called Lee, and when he had

finished exactly twenty-nine militiamen had their hair trimmed, each operation averaging one minute ten seconds. The men were then furnished with soap and towel and gave their heads a good washing.

## WILL DOCK AT BOSTON?

Reported That Submarine Bremen Is Headed for That Port.

(Special to The Herald)  
Baltimore, July 25.—The submarine Bremen, sister ship to the Deutschland, will dock in Boston and not Baltimore as was expected. It was learned from an official of the Eastern Forwarding Co., agents of the submarine company that orders were issued to the commander of the Bremen that she should not risk running into the fleet of allied warships waiting for the Deutschland outside of Baltimore, but instead should go into Boston harbor.

## CHARGES POLICE BEAT WITNESSES

State Attorney Makes Starting Statement in New York Police Probe.

New York, July 25.—Charges that prisoners, some of them women, were "framed" and brutally beaten by the police in "star chamber" sessions, were made yesterday in the police graft investigation which already has resulted in the indictment of five policemen for accepting money from the keepers of disorderly houses.

Deputy Asst. District Attorney James E. Smith declared that two women who figured in a white slave case were at present under a doctor's care and in a serious condition from treatment received at the hands of the police. Mr. Smith asserted that so serious had become the situation that it was necessary to provide bodyguards for witnesses who are to appear before the grand jury.

## KITTERY

George E. Williams of Echo street has been summoned to appear in the local court on the charge of keeping a dangerous and vicious dog. It is alleged that on Saturday evening Mrs. Annie Shannon, who lives on Echo street, was attacked while going along the street, and severely injured by the animal. The dog is said to have jumped at her, torn her clothes considerably and injured her physically so that Dr. E. E. Shapleigh was called to treat her and dress the wounds.

The case will be heard in court Wednesday evening, if Mrs. Shannon is able to be present, but her condition Saturday night and Sunday was serious as a result of shock and other hurts which she claims were caused by the attack of the dog.

Charles P. Moody, of Medford, Mass., who is staying with his aunt and uncle, Mr. and Mrs. Bertram P. Moore of Oak Hill, has taken employment on the navy yard.

This evening a dance will be held in Grange Hall, and promises to be a very novel affair.

# HOLLAND HOLDS GERMANY RESPONSIBLE FOR SHIP

## Declines to Accept Berlin's View of Torpedoing of the Tubantia.—Case Far From Being Settled

The Hague, via London, July 24.—The long expected Orange Book, covering the period from October 1915, to the present year, has been issued yesterday. It vividly illustrates the difficulties with which Holland has had to deal, owing to her geographical situation between the belligerents. The record shows that disputes have arisen now with Germany and now with Great Britain, the progress of which has followed with the deepest interest, not unmixed with anxiety, by the entire Dutch nation.

The Orange Book has been delayed for months in the hope that some settlement of the questions at issue would be reached, but several matters are still in suspense, it says, and some hopelessly in deadlock. The principal of these matters is the sinking of the Dutch liner Tubantia, which is at the same stage that had been reached June 4, when, on the ground of elaborate technical evidence Germany declared the incident closed, that no German warship had sunk the Tubantia and insisted that it was likely that it was a torpedo which previously had been fired at a British warship, had remained afloat and come in contact

with the liner. To this portion of the Orange Book a footnote by the Dutch Government adds that Holland maintains its previous attitude that a German torpedo sank the Tubantia and says the Dutch Government has determined to leave nothing undone to obtain additional light on the matter and has asked further information from Germany, with which confidential conversations are now proceeding.

**Demands Payment for Berkeström**  
Another case dealt with is that of the destruction in April by a German submarine of the Dutch steamer Berkeström. Holland sharply demanded full reparation for this act and especially protested against the German submarine commander's alleged utterance that all goods bound for England were contraband and all ships bound for England would be sent to the bottom.

Germany on July 2 justified the sinking of the Berkeström, but invited the owners of the cargo on board the steamer to make their claims to the Hamburg prize court. Germany denied that the submarine commander used the words complained of, declaring

they were "entirely contrary to the instructions of the German Admiralty." Holland on July 15, however, complained that the ship's papers had not been sufficiently examined and maintained that the destruction of the Berkeström was illegal.

The Orange Book says that answers are still expected from Germany as to whether the explosions on the Holland-American line freighter Mendilje, while bound from Baltimore for Rotterdam, and on the Dutch steamer Rijnvidje, while bound from Portland, Me., for Rotterdam, were caused by German torpedoes.

**Protest Against Allied Blockade**

The Orange Book disputes with Great Britain and France concerning orders in council of Oct. 29 and March 10, and the French equivalent of the decree, mainly on the principle of the interruption of the nationality of merchantmen, which Holland maintains is established by her. Thus, a case in point being the Dutch steamer Ham-burn, which was seized by a British warship and taken to Halifax while proceeding from New York to Cuba last year. The steamer at the time was under charter to an American company. Holland maintains her protests against the seizure and subsequent requisitions of the steamer by the British Admiralty as contrary to the law of nations, which had already been disregarded in previous instances by Great Britain and France.

Holland also protested, according to the Orange Book, against British seizures of postal cards on neutral ships up to June 16, when Holland in a note said that Great Britain's alleged evidence of enemy origin or destination could not be proved.

Great Britain referred to correspondence with the United States on these points, to which Holland replied that she could not consider arguments with a third power.

**Holds Mail Seizure Illegal**

Regarding the detention of letters Holland adopts the standpoint of the United States that, although Great Britain consented to facilitate the handling and shipment of documents if placed in separate mail bags, Holland still maintains the principle that the detention of mails is illegal.

In conclusion the Orange Book says the Government of South Africa offered Holland, not as an act of legal disability, but as an act of grace, to compensate her for the destruction of the Dutch consulate in Johannesburg the night of May 13, 1915. Holland refused to accept compensation under such conditions.

In the Orange Book are published ten verdicts of prize courts—seven German and three French—with regard to the seizure of fish and other cargoes. Three of the German and two of the French decisions were adverse to the Dutch. In the other cases damages were paid.

**BID GOES TO TRUST AND GUARANTEE CO.**

The bids for the \$25,000 issue of Portsmouth City Notes, payable in \$5,000 lots and 1917, 1918, 1919, 1920, 1921, with interest at 4 per cent per year, authorized at the last meeting of the city council, were opened on Monday at the office of the city treasurer, John H. Bachelder. The lowest bid for this lot was made by the Portsmouth Trust and Guarantee Company, which bank was awarded the issue. The bank bid 101.10. The other bids were as follows:—

# BETTER METHODS ARE NEEDED TO DEVELOPE MACHINERY TRADE

## DEPARTMENT OF COMMERCE BELIEVES THE FIELD IN SOUTH AMERICA IS OPEN IF RIGHT PLANS ARE ADOPTED

Washington, D. C., July 24.—Quality alone, or even quality combined with satisfactory prices, will not sell our goods in South America; in addition, there must be active and intelligent representation. As an example of laxness in methods of some American representatives, Special Agent J. A. Massel of the Bureau of Foreign and Domestic Commerce, in a report on machinery markets in Peru, Bolivia, and Chile, just issued, relates a conversation that he had with a prominent sugar engineer.

Knowing that this particular firm represented American manufacturers of sugar mill machinery and of all engines, he inquired why the American article was non-existent in large plants, while the English and French have all the business, though their prices for this particular class of machinery are in many instances higher. In reply the claim was made that the English sugar mills and crushers have the journals of the top rollers of the same diameter as those of the bottom, which enables the owner to use a spare roll in either position. When the importer's attention was called to the fact that the American manufacturer represented by his own clearly specified this point, and allowed the purchaser to decide which size he desired, as the system referred to has certain disadvantages as well as advantages, he admitted that he had not read over the specifications carefully and was not aware of the fact. "Yet this firm," says the writer, "has been representing an American house for some three years."

In another case the manager and engineer of an importing house, which works on a commission basis was unable to give either the number of sugar factories in Peru and their locations or the capacities of the largest factories and the types of machinery used. "Under these circumstances," says the report, "it is scarcely remarkable that American manufacturers do not get the business."

In contrast to the men who did not know is cited the case of the importer who represented English manufacturers of machinery and had made a great success of it. He had all the information desired at his finger tips.

The three cotton mills visited were equipped mostly with machinery from Italy, for the reason that the manager in charge and the man who chose the equipment are Italians. "The obvious conclusion from this situation," says Mr. Massel, "is that manufacturers in this country who desire to deal with purchasers in Peru who are not already familiar with the merits of American machinery should, wherever possible, appoint their own regular agents, and deal direct rather than through middlemen; and that in so doing they should be sure to select men of whom they have adequate knowledge, as this may be a point of no less importance than those connected with the facilities for credit information and for shipping." He states that cases have been known where American firms have lost profitable orders, even when their machinery not only had a world-wide reputation and cost less to ship but was quoted on terms more liberal than those of competitors and its delivery guaranteed.

An important fact brought out in the report is that Chile offers excellent chances for Americans. The fact that the nitrate plants are not concentrated in the hands of one nation, and that the most important of the various mining enterprises are in the hands of Americans, inasmuch as all of them use a great deal of various kinds of machinery and are equipped with machine shops, should encourage the manufacturers of this country to endeavor to secure the business.

The report reviews for the benefit of American manufacturers the general conditions in Peru, Bolivia and Chile, as affecting the use and purchase of machinery, gives with some fullness the latest available statistics for the imports of this and related classes, discusses the character and methods of the machinery trade and describes in detail the equipment of the chief plants and establishments in the predominant industry or industries of each market.

Copies of Special Agents Series No. 115, "Markets for Machinery and Machine Tools in Peru, Bolivia and Chile" may be procured from the Superintendent of Documents, Government Printing Office, Washington, D. C., or from the District Offices of the Bureau of Foreign and Domestic Commerce at 10 cents each.

**Largest Number of Men Employed Since Spanish War.**

Twenty-six hundred men are now employed at the Charlestown navy yard, the largest number since just about the time of the Spanish-American war. Of this number 2100 are mechanics. The remainder are clerks. "We can use all the iron moulders,

platers and machinists that come along," said one of the chiefs in the construction department, better known as the hull division. "We cannot get them as it seems they are all busy at work in the various shipyards. There are 1175 mechanics at work in this division at the present time, and 100 more of various classes could be worked," he added.

The fact that so many are employed at the yard during this time of the year shows that there is an immense amount of work on hand. Every berth has a ship, nearly all of the ships undergoing repairs. The summer has always been known as a dull time at navy yards on account of the fleet being at sea, but since the navy has been enlarged, warships are coming and going all the time.

Naval Constructor Baxter, head of the hull division, is very anxious to lay the keel of the new torpedo testing barge, but he is unable to secure all the material he desires. About three-quarters of the stock is on hand but he will not lay the keel until every bit of material is in the shops ready to be put in position.

The cost of constructing the barge will be about \$125,000. The original plans called for its construction at \$75,000 but congress asked \$50,000 more on account of the cost of the material.

**WAR PRISONERS MUST SALUTE ENEMIES IN ALPS**

Berne, July 25.—The General Staff of the Swiss army has issued the following order to the French, English, German and Austria-Hungarian war prisoners who have been sent to Switzerland for recuperation:

"The soldiers of the different belligerent nations on Swiss soil have to salute the commissioned and non-commissioned officers of their enemies in the same manner as they salute their own superiors. They must remember that they are on neutral ground, where race hatred cannot be tolerated. In the eyes of the Swiss nation and its government the prisoners are equal. They were all captured in honorable battle, while fighting for their countries, and should treat each other with respect."

# HOLLAND HOLDS GERMANY RESPONSIBLE FOR SHIP

## Declines to Accept Berlin's View of Torpedoing of the Tubantia.—Case Far From Being Settled

The Hague, via London, July 24.—The long expected Orange Book, covering the period from October 1915, to the present year, has been issued yesterday. It vividly illustrates the difficulties with which Holland has had to deal, owing to her geographical situation between the belligerents. The record shows that disputes have arisen now with Germany and now with Great Britain, the progress of which has followed with the deepest interest, not unmixed with anxiety, by the entire Dutch nation.

The Orange Book has been delayed for months in the hope that some settlement of the questions at issue would be reached, but several matters are still in suspense, it says, and some hopelessly in deadlock. The principal of these matters is the sinking of the Dutch liner Tubantia, which is at the same stage that had been reached June 4, when, on the ground of elaborate technical evidence Germany declared the incident closed, that no German warship had sunk the Tubantia and insisted that it was likely that it was a torpedo which previously had been fired at a British warship, had remained afloat and come in contact

with the liner. To this portion of the Orange Book a footnote by the Dutch Government adds that Holland maintains its previous attitude that a German torpedo sank the Tubantia and says the Dutch Government has determined to leave nothing undone to obtain additional light on the matter and has asked further information from Germany, with which confidential conversations are now proceeding.

**Demands Payment for Berkeström**  
Another case dealt with is that of the destruction in April by a German submarine of the Dutch steamer Berkeström. Holland sharply demanded full reparation for this act and especially protested against the German submarine commander's alleged utterance that all goods bound for England were contraband and all ships bound for England would be sent to the bottom.

Germany on July 2 justified the sinking of the Berkeström, but invited the owners of the cargo on board the steamer to make their claims to the Hamburg prize court. Germany denied that the submarine commander used the words complained of, declaring

BALTIMORE MAKES AN ORDINANCE—VIOLATION CARRIES POSSIBLE \$100 FINE

Baltimore, July 24.—Policemen today began distribution of copies of a municipal ordinance providing that "musicians, performers or other persons shall stand while playing, singing or rendering 'The Star Spangled Banner.'" Any person violating the provisions of the ordinance "shall be guilty of a misdemeanor, and upon conviction shall be fined not more than \$100."

Distribution was made to all theatres, moving picture halls, restaurants and cafes, and to the offices of all musical unions or branches in Baltimore.

**MANY MORE WOMEN IN GERMAN UNIVERSITIES**

Berlin, July 25.—One of the results of the present world war is the astonishing increase of woman students in all German universities. Even the University of Muenster, which formerly did not encourage the feminists, now has 271 women among its students. Some of them are widows of soldiers.

Before the war the women only in rare cases studied anything but medicine, languages, philosophy, literature and art, but now they are taking up all kinds of scientific professions, even engineering, architecture and theology. The greatest attraction for them is law, however. In a few years Germany will have more women attorneys than any other country in the world.

Toledo, Ohio, July 25.—The Toledo Commerce Club has undertaken one of the largest and best philanthropic works ever undertaken by any commercial organization. In fact this work is the first of its kind ever done by any commercial organization in the country. This consists of a summer camp for tired mothers and their families, people who otherwise would not have any vacation whatever from the daily routine.

The Commerce Club has built a tented city along a stretch of sandy beach on the lake front, with sleeping accommodations for 150 people and they have carefully selected worthy families to the extent of 125 mothers and children, who are taking advantage of a two weeks' outing.

beach on the lake front, with sleeping accommodations for 150 people and they have carefully selected worthy families to the extent of 125 mothers and children, who are taking advantage of a two weeks' outing.

The site is ideal, having all the advantages of the lake breezes, sandy beach and a fine grove with plenty of grass and shade. Doctors and nurses are in attendance to look after the physical well-being of the families. Competent chefs prepare nourishing food and a matron is in charge to furnish entertainment and instruction for the mothers and little ones.

Lecture periods are arranged every day and an entertainment of some sort every night.

**CAMPAIGN PLANS  
OF HUGHES HAVE  
BEEN CHANGED**

New York, July 24.—William R. Wilcox of Republican National Committee announced today that the complete itinerary for Charles E. Hughes first western tour, beginning August fifth, would be made public before the end of the week. Chairman Wilcox said that as a result of his conference with the presidential nominee of Bridgehampton last night a tentative itinerary had been arranged. Upon returning to New York this morning the chairman communicated with railroad officials with regard to transportation arrangements.

It has been found necessary to make changes in the plans formulated early in the month for the transcontinental tour. Originally Mr. Hughes planned to deliver ten or twelve fixed addresses during the four weeks he would be in the west. But the nominee has received so many requests to speak that he will make several additions to his list. One change announced today was that Mr. Hughes would speak twice on Aug. 9. One address will be delivered in St. Paul and the other in Minneapolis. The nominee had planned to speak only in St. Paul on that date.

Chairman Wilcox said that Mr. Hughes would not come to New York Wednesday, as has been his custom, but would come Thursday, returning to his summer home at Bridgehampton Thursday evening. Mr. Wilcox said there were several reasons for the change, one being that the nominee wants an extra day in Bridgehampton to work on his acceptance and campaign addresses.

Word was received at headquarters that Senator Fall of New Mexico would arrive here tonight from Washington to confer with Mr. Hughes in New York or Bridgehampton, about the Mexican situation. It is understood that the Senator is coming here at the request of the nominee.

Among the visitors today were Judge Edward Kent of Arizona and A. T. Hart, national committeeman from Kentucky. Judge Kent told Mr. Wilcox that the Republicans stand a good chance of carrying Arizona, because of the way President Wilson has handled the Mexican problem.

Workmen began this afternoon to move the office equipment from the temporary headquarters at the hotel Astor to the permanent headquarters in the new Postal Life building. Chairman Wilcox intends to be in his new office in the Postal building tomorrow. Although the headquarters will be in that structure, Mr. Hughes will continue when in New York to receive his visitors at the hotel Astor.

It is expected that Chairman Wilcox will announce the appointment of the director of the Speakers' Bureau tonight.

**BRITISH SEEK CONTROL OF SWISS EXPORTATION**

Berne, July 25.—Many Swiss manufacturers and exporters and the chambers of commerce of the different industrial centers have been semi-officially notified by the British Board of Trade that all Swiss goods exported to the United States and other neutral countries will in the future have to pass through England.

In the circular sent out from London it is stated that many of the foreign firms who acted as agents for Swiss manufacturers have been placed on the British blacklist and no goods consigned to such concerns will be permitted to reach their destination. The manufacturers are informed that they can avoid all trouble and loss by placing their foreign business completely in the hands of British firms and agents, and importing their raw materials in the same way.

All manufacturers and exporting firms are warned that they may lose their foreign markets entirely if they object to British control over their trade.

**BRAVE TYROL PRIEST DIES IN BUKOWINA**

**NEW PROPAGANDA  
TO HAVE WARSHIPS  
CARRY U. S. MAILS**

SENATOR HUSTING, WHO CAUSED PROBE OF MAIL DELUGE, UNEARTHS NEW SCHEME

Washington, July 24.—Senator Husting, who led the movement for investigation of the telegraphic propaganda which, several weeks ago, deluged Congress with demands for action to warn Americans of armed ships, received evidence today of another propaganda being organized to ask Congress to order American mails carried by warships to escape British detentions.

Documents which Senator Husting received show that the propaganda purports to be fostered by the American Steamship Ticket Agents' Association at 355 Broadway, New York, and that forms of telegrams to be sent to Congress on July 14, had been distributed throughout the country.

A copy of a circular letter sent out by the association was received today by Senator Husting. It is addressed to "Banks, Bankers and Money-Forwarders" of the United States, and shows the following to be officers of the "Ticket Agents' Association."

James Markel, president; Rich M. Lederer, vice president; Eugene Rutledge, treasurer; Morris Engel, vice president; N. C. Herz, vice president; Karl Schenk, secretary; Walter B. Round, vice president.

## AT THE COLONIAL.

The Colonial Theatre presented an  
entire change of vaudeville and pictures  
yesterday afternoon which included  
some new novelties as well as  
interesting and amusing features.

"The Devil's Review" is a musical  
comedy offering that is entirely different  
and original in its line, introducing  
some clever review numbers, up-to-date  
songs and novelty dances. The  
comedy, which is neat, clean and  
refined, is unusually well handled and  
the costumes and special scenery are  
of the very best, and adds greatly to  
the quality of the act.

Theresa Rose, a young lady of refined  
musical ability presents a well  
selected program on the violin and  
cello.

Most in keeping with the present  
times in the act presented by Charles  
Atkinson, in the special offering entitled  
"A Man Without a Country."

The new weekly and the other  
photoplay features fill in well the remainder  
of the program.

## OBITUARY

## RECRUITING OFFICERS FOR N. H. GUARD

Adjutant General Howard has been  
instructed by the war department, in  
common with the adjutants general  
of all the other states in the Union,  
to nominate not more than three officers  
of the First New Hampshire  
regiment and one for the Battery,  
Signal corps, Cavalry and Hospital  
corps and for each officer so nominated,  
one sergeant, one corporal and  
one private for duty in connection  
with recruiting other than at mobilization  
camps.

The order further insists upon a  
prompt report by mail of the stations  
he recommends for each officer and  
the areas to be covered by it. In-  
variably these limits must be within  
the limits of the state.

These officers will be allowed to recruit  
for the regular army as well as  
for the National Guard and in a similar  
manner regular army recruiting  
officers will be allowed to recruit here  
after for the National Guard. The  
recruiting rendezvous for the National  
Guard in New Hampshire will be at  
Fort Constitution, Portsmouth  
harbor and for the regular army in  
New England, the rendezvous will  
continue to be at Fort Slocum, New  
York.

The order further insists upon a  
prompt report by mail of the stations  
he recommends for each officer and  
the areas to be covered by it. In-  
variably these limits must be within  
the limits of the state.

## THE HERALD HEARS

That a well known Portsmouth  
man who is visiting the North Country  
says bears are numerous.

That one gave him a chase for half  
a mile but he beat out the wild animal.

That he intends to return with his  
gun and get brush later.

That his bearship will never get  
away when this man has his gun.

That a fireman on one of the Boston  
and Maine switching engines did  
a good bit of timely work a few days  
ago.

That his engine was standing back  
of the depot when he observed a  
horse attached to a wagon containing  
two young women, prancing in good  
style on Maplewood avenue.

That he knew that the women were  
due for a spill and perhaps fatal injury.

That he lost no time in acting.

That he jumped from the locomotive  
and over the high fence dividing  
the railroad and city property and  
was on the scene in a jiffy.

That he grabbed at the reins of the  
spiffed animal with much danger to  
his own life and checked what might  
have been a bad accident.

That he certainly was a modest  
hero from the fact that he declined  
to give the young ladies his name.

That people who witnessed the act  
say it was nothing short of heroic.

That four boys who reside on McDonough  
street are finding much  
pleasure in that miniature submarine  
boat which they now have cradling  
on the North Mill pond.

That the city should set out some  
regular place for boys to go bathing.

That a lady living on the line of  
the Dover branch says it takes a Boston  
and Maine trainman to handle a  
collapsible baby carriage.

That the trainman may know how  
to handle one of these multitudinous  
push wagons but it took some hard  
work and ingenuity to land it on the  
train.

That he is much pleased to know  
that the camera man did not get him  
in the act.

That the state board of trade will  
request incorporation from the secretary  
of state.

That the Italian string band at the  
North End has an increase of members  
and is doing some fine work on  
the mandolin and guitar.

That the new manager of the American  
Express put in one day on the job.

That the kids are getting impatient  
for their playgrounds swimming tank.

That a farmer at Kittery Point recently  
purchased a cow at York  
which he fed up in a field near his  
house.

That the next day "Bossy" was  
missing from the feed grounds and  
naturally a theft was suspected, but  
it was nothing of the kind.

That after a long hunt the cow was  
located in the barn of her original  
owner at York.

That it seems impossible to imagine  
the bovine hiking back over the road  
but she got there some way or other.

That the new improvements on the  
New England Telephone and Telegraph  
Company will not start until  
September.

That the Sunday evening concerts  
at the Hotel Wentworth are much  
enjoyed by a large number who go  
there from Portsmouth.

That John Sullivan, present councilman  
from ward three is mentioned as  
one of the Democrats for representative  
frontrunner in that ward.

That a woman who has been  
splashed with mud on her way to  
church may as well start right back  
home as a sermon of any nature  
would have no impression on her.

That the city council has not as yet  
found out who has the right of way  
in Frenchman's Lane.

That the man who says he smokes

25 cigars and ten packages of cigars  
is not a heavy smoker but a  
heavy liar.

That many a man loses his respect  
for old age when he tackles a tough  
fowl in a restaurant.

That some cities find fault with  
children skating on the street. What  
about the men with skates on?

That the dyestuffs which came over  
on the under-water freighter ought to  
add a little color to the situation.

That the board of registrars will  
soon announce their meetings.

That the Hornet club will later put  
on a three act drama entitled, "Stung  
Again."

## ON A LONG RUN

Fifteen Motorcyclists Pass  
Through This City on  
Tuesday Noon.

Fifteen motorcyclists, contestants  
in a two days' run held under the  
auspices of the Federation of American  
Motorcyclists, passed through  
this city at noon Tuesday.

Eighteen contestants left Albany,  
N. Y., at 4 a. m., Monday morning  
and made the run to North Conway,  
N. H., a distance of 313 6-10 miles,  
where they put up for the night. Here  
one of the riders dropped out. The  
remaining contestants left there at 7  
a. m. Tuesday morning and rode to  
Portland, and from thence to this  
city, arriving here at 12:20 p. m. After  
checking up at Clifford A. Low's  
supply station on Pleasant street,  
they left for Newburyport, Boston,  
Fall River, Mass., and are expected to  
reach Providence early this evening  
where the run ends. This was held in  
connection with the convention of the  
F. A. M. which opened in that city  
on Monday and continues the re-  
mainder of the week.

One of the riders in the party was  
B. C. Baker who holds scores of records  
for accomplishing various runs  
on the motorcycle, among them being  
the cross-country race from San  
Francisco to New York on the Indian  
motorcycle, and others in Australia  
and other foreign countries.

## GIFT OF CHURCH

Oscar Loughton Rejoices That  
He Gave Same to Summer  
Meetings Association.

At the dedication ceremonies at  
Star Island on Saturday last Mr.  
Oscar Loughton, who has for so many  
years been associated with the history  
of the Isles of Shoals was the  
first speaker. After expressing his af-  
fection for those who love Star Is-  
land, he related how he himself built  
the present tower on the old church  
and made the bed for as nearly as pos-  
sible like the former one. He believed  
that the little meetinghouse was a  
good anchor to hold safe in the har-  
bor. Mr. Loughton rejoiced that before  
the island passed out of his hands he  
had given the church to the summer  
meetings association.

## NEW BOAT COMING

Army Steamer Capt. T. W.  
Morrison Goes to Fort  
Caswell, S. C.

The army steamer Captain T. W.  
Morrison which has been stationed at  
Fort Constitution for the past four  
years or more, sailed on Monday for  
Fort Caswell, S. C., where she will be  
stationed in the future. A smaller  
boat from Fort Caswell will relieve  
the Morrison at New Castle and will  
sail north as soon as the Morrison  
arrives.

## RUNS AUTO INTO BANKING

To Avoid Hitting Girl Who  
Crosses Street in Front of  
Machine on Noble's  
Island.

A young girl, residing on Noble's  
Island, had a narrow escape from in-  
jury Tuesday morning when she at-  
tempted to cross the street in the path  
of an approaching automobile. The  
machine was driven by Leo Cavanaugh  
of Manchester, who was on his way  
to York Beach.

To avoid hitting the girl as she ran  
directly in front of the machine, Mr.  
Cavanaugh swerved his car and ran it  
into the banking, damaging one of the  
front wheels. It was later taken to  
the Kittery Garage for repairs, after  
which Mr. Cavanaugh proceeded on  
his way.
